

Helping you better **protect your business**

A smart security system for your business that helps to give you something far better than hope

Only for Aviva policyholders – a smart security system at no cost to your business, RRP £332.50 ex VAT¹

Having the right cover in place to help protect your business is critical should the worst happen, like a burst water pipe causing damage to goods and disruption to your daily operations. But as reassuring as cover is, nothing helps to give you peace of mind as much as knowing you've done all you can to minimise incidents from occurring in the first place.

That's why we've partnered with security system experts SimpliSafe to offer Aviva commercial customers easy-to-install smart security systems. It's all part of our commitment to delivering prevention-first protection.

Meet SimpliSafe: 24/7 protection

SimpliSafe have established themselves in the home security market, combining intuitive technology with their market expertise. With over 100,000 commercial customers², their technology allows you to create a smart and secure security system for your business that's incredibly easy to set up and control.

The whole system can be installed without professional help. After that, you're ready to go. The system can be monitored through your smartphone and you'll receive alerts to your device the second any one of the sensors is triggered.

Full security suite at no cost¹ to your business

Fire, unwanted entry and escape of water are common risks that many businesses face. These can be potentially damaging and devastating. The last thing you need after the past 18 months is more disruption from a claim that could be preventable.

The devices included in this bundle will help to better protect your business against these most common risks, improve security and help to give you peace of mind.

Base Station

Built with a backup battery in case of a power outage. Just plug in and follow the instructions to start protecting.

Keypad

Use the keypad to set up, control and arm your sensors. Also includes a hidden panic button in case of an emergency.

SimpliCam HD Camera

See what's happening in your premises anytime via your smartphone, tablet or computer.

Motion Sensor

Mount in the corner of a room for maximum coverage and it will detect and alert you to any movement across the entire room.

Two Water Sensors

Detects escape of water and potential flooding, so you can minimise the potential damage.

Smoke Detector³

Triggers when a fire's smouldering, emitting loud system-wide sirens to alert you and your employees.

Temperature Sensor

Triggers when the temperature drops below 5°C so you can prevent pipes from freezing and bursting.

Two Entry Sensors

Guard against break-ins with sensors that are triggered by the opening of doors and windows.

Eight free months of Professional Monitoring service

24/7 year-round monitoring ensures you're called in the event of an intruder, and police and fire services are immediately alerted if necessary. You get eight months included⁴, then optional thereafter for £16.66 ex VAT a month unless you choose to pause the service beforehand.

Up the protection of your premises and it could improve your insurance cover

Reducing the likelihood of these most common disruptions could also have the knock-on effect of reducing business continuity claims over time. This means that in the long term, by working with you to manage risks and reduce claims, we hope to be in a better position to provide you with improved insurance cover.

Access connected security at no cost¹ to your business

Working with SimpliSafe, we're providing you this smart security bundle worth £332.50 ex VAT RRP – at no charge¹ to your business. Speak to your insurance broker today to take the next step.

¹Aviva are funding the SimpliSafe smart security bundle worth £332.50 ex VAT RRP, and eight months of the Pro Premium Professional Monitoring service. If you wish to continue the Professional Monitoring service beyond the introductory period, you will be charged £16.66 ex VAT per month unless you decide to pause or cancel the service. The Pro Premium Professional Monitoring service also offers guard response, which is an additional charge if required. If you do not wish to opt in to this, please let SimpliSafe know.

²100,000 business customers as stated on the SimpliSafe Business Security [website](#).

³Disclaimer: This Smoke Detector and any associated monitoring service is not a substitute for a commercial-grade fire detection and warning system where this is required. It is your responsibility to conduct a fire risk assessment to determine the most appropriate fire detection and warning system for your premises. Depending on your risk assessment and the building regulations in your area, the Smoke Detector may only be suitable for use in tandem with a commercial-grade fire detection and warning system. The Smoke Detector is intended to assist with data capture and (if selected) monitoring services in relation to fire incidents via the monitoring app.

⁴'Eight months' complimentary Professional Monitoring once activated. You will need to enter payment details to activate the service.
